

CHANGING PLACES

Summer is the new Spring!

What used to be a bustling Spring “selling season” for home sellers has turned into a Summer one. The award-winning Changing Places team is already hard at work preparing our clients’ home for sale. We’re working virtually and on-site, using COVID safety protocols. We’re expertly moving our clients forward and meeting “listing-ready” deadlines, too.

How can we help you get ready to list?

Our services include de-cluttering, staging, consignment, donation, finding the perfect mover, arranging cleaning services, furniture repair, digitizing memorabilia, and more!

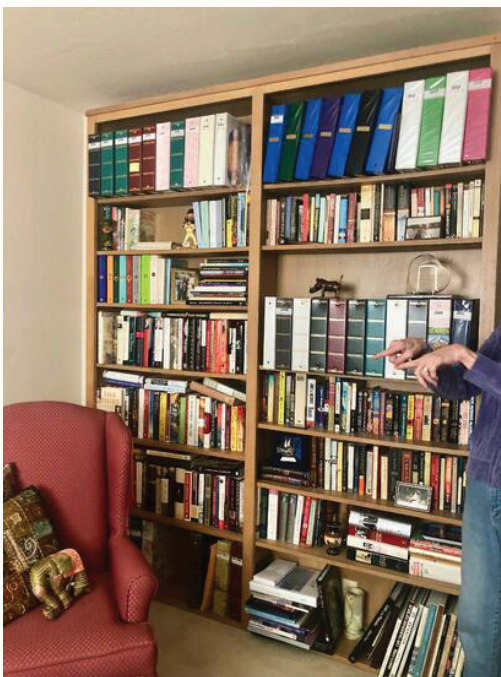

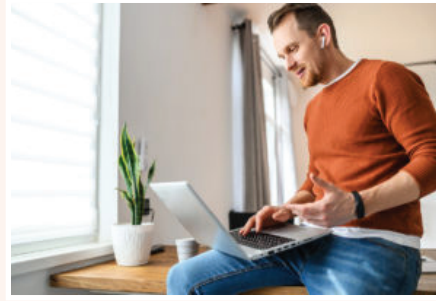

STAFF SPOTLIGHT

Mary Lee Bickford
Interior Designer, Home Stylist & Stager

Mary Lee is the **style and design guru** on the CP team, and we also call her the “Art Savant” for placing our clients’ art after a move-in. Mary Lee holds dual degrees in Interior Design Technology and Aeronautical Science, and has practiced design for over 25 years. She is our resident **interior designer and home stylist**, also skilled in **staging real estate** for sale. She enhances our clients’ homes using existing furniture, rugs and art to achieve a “staged” home for a fraction of the price of traditional staging.
