

## Service Spotlight: Moving & Relocation

WE LOVE COMPLICATED RELOCATIONS.

While we're organizers at heart, it's moving people that move us. Our team thrives on taking on the details of a complex move and relieving our clients of the stress that comes with them.

Here's a snapshot of the tasks we've expertly managed for our clients:

- **Arranged cross-country private transport of 4 Cavalier King Charles Spaniel dogs separate from the mover truck**
- **Oversaw crane removal of a 4,000-pound statue from a home through a 20th floor window**

• **Disassembly and reinstallation of a high value, designer chandelier made of 26 delicate, intricate interlocking pieces**

• **Perfectly replicated the home of a client who suffered from Alzheimer's home into her new home to create continuity and familiarity**

#### STAFF SPOTLIGHT

## Ana Guzman

In 2013, Ana began working in the home office of Changing Places as the Assistant to our Founder and CEO, Margaret Walsh. Margaret immediately noticed Ana's keen eye for detail and dubbed her a natural organizer. Within a few months, Ana was out of the home office and working in our clients' homes, putting her talents to

work. Ana is a phenomenal team player. She shows up on every job with a big smile on her face, ready to face the day. She is that person that makes the most complicated task look easy. Ana is thorough, detail-orientated, and has an amazing gift for making her clients feel at ease even in the most stressful of times. She's also known as our most expert clothing folder!

**Ana's Favorite organizing item and why:** My label maker. It really helps everyone identify where to put things back. Especially in my boys' room... :-)

**Favorite place in her home and why:** My backyard. My boys and I love spending time outside grilling, playing with the dogs, and tending our little garden.

PARTNER SPOTLIGHT

## Ship Smart

Ship Smart can handle a move of any size, but what sets them apart (and one of many reasons we love them) is their niche service of specializing in small moves. So, if you are looking to sending a few items to a friend or family member, move a child to college, or move your parents to an assisted living facility (and don't need a full truck load), [Ship Smart](#) is the answer for you!
