SCRAP

At Changing Places, we pride ourselves on finding new homes for our clients' items that they wish to donate. We avoid the landfill at all costs, which is why we LOVE working with one of our favorite non-profit partners, Scrap.

SCRAP is a Creative Reuse center and Arts Education Nonprofit founded in 1976 in San Francisco. They breathe new life into old arts and crafts supplies and reduce waste by diverting over 200 tons of materials heading to landfills every year. This model allows them to help teachers and students by providing free and very low-cost supplies.
