

## Changing Places Is Excited To Announce Our Expansion Into the South Bay.

We understand that preparing a home for showing and selling can be a daunting task for Realtors.

This is where Changing Places comes in.

With 30 years of experience, we are the first and oldest business of its kind in Northern California. We are the only organizing and relocation company of our size helping

realtors and their clients with moving, organizing, and design solutions that last a lifetime.

Our team takes on the details of preparing the home to show and sell, allowing you to quickly get the property on the market and increase its value. Within a week, we clear the house to list it. We hire only the best vendors in the business, guaranteed, and our staging and design assistance boost the home's sale price further.

Our relocation concierge is unmatched; Let us handle the small details and free up your time to market the property—not on finding a handyperson.
